DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 25, 2005 has been entered.

Response to Arguments

2. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

Allowable Subject Matter

3. Claims 1 – 34 are allowed.

4. The following is an examiner's statement of reasons for allowance: ✓

Claims 1 – 34 recite, inter alia, a semiconductor device in which a praseodymium oxide dielectric layer contacts the surface portion substantially without an interface material between the praseodymium oxide and the surface portion. Although Bojarczuk's method (US 6,541,079) is applicable to Pr to form an oxide, Bojarczuk in his disclosure, fails to teach or suggest or provide sufficient information to prove that an interface material will not form between a praseodymillm oxide and a surface of a body region on which a praseodymium oxide is disposed as recited in the instant claims. In an example of Bojarczuk's method applied to aluminum, the interface between the oxide

and the Si substrate was shown to be free of any interfacial layers as deduced from high resolution transmission electron microscopy. Bojarczuk fails to disclose the results for aluminum, in addition to forming an oxide, will be the same for all the other listed materials. Additionally, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
